

# Elite Announces Co-Development of Four Additional Products with SunGen Pharma

Release: 7/28/2017 8:00:00 AM

NORTHVALE, N.J., July 28, 2017 (GLOBE NEWSWIRE) -- Elite Pharmaceuticals, Inc. ("Elite" or the "Company") (OTCBB:ELTP), a specialty pharmaceutical company developing abuse-deterrent opioids and niche generic products, today announced Elite and SunGen Pharma, LLC ("SunGen") will co-develop four additional generic products bringing the total number of products developed under the amended agreement to eight.

Under the terms of Amendments to the parties' 2016 Development and License Agreement (the "Agreement"), Elite and SunGen will share the responsibilities and costs of development. Three products will be owned jointly by Elite and SunGen; three shall be owned by SunGen while Elite shall have the marketing rights once the products are approved by the FDA; and two shall be owned by Elite while SunGen shall have the marketing rights once the products are approved by the FDA. Elite will manufacture and package all eight products on a cost plus basis.

The product classes for the additional four products include antidepressants, antibiotics, and antispasmodics. The additional four products and their generic equivalents had total U.S. sales of more than \$1.4 billion in 2016 according to IMS Health Data. The original four products and their generic equivalents had total U.S. sales of more than \$3 billion in 2016 according to IMS Health Data.

Building on the success of the original agreement, Elite announced earlier this month a second agreement signed on July 6, 2017, in which Elite and SunGen will collaborate, develop and commercialize generic pharmaceutical products based upon a unique drug delivery platform used for extended release products. The parties will commence development of five generic extended release products and thereafter develop additional such products as there are more than a dozen products utilizing this type of technology. For the twelve months ending March 31, 2017, the initial five products and their generic equivalents had total U.S. sales of more than \$2.5 billion according to IMS Health Data.

"We are delighted to continue building on our great partnership with SunGen, and are looking forward to more collaboration in the near future," said Nasrat Hakim, Chairman and CEO of Elite.

## **About SunGen Pharma LLC**

SunGen Pharma, LLC is a privately held specialty pharmaceutical company which develops, contract manufactures, and sells pharmaceutical finished products. SunGen specializes in the development of oral solid extended release and complex injectable products. SunGen has business partnerships with many US-based generic pharmaceutical companies to develop, manufacture, and sell several pharmaceutical products in the US.

## **About Elite Pharmaceuticals, Inc.**

Elite Pharmaceuticals, Inc. is a specialty pharmaceutical company which is developing a pipeline of proprietary pharmacological abuse-deterrent opioid products as well as niche generic products. Elite specializes in oral sustained and controlled release drug products which have high barriers to entry. Elite owns generic and OTC products which have been licensed to TAGI Pharma, Epic Pharma, and Valeant Pharmaceuticals International. Elite currently has eight commercial products being sold, additional approved products pending manufacturing site transfer and the NDA for SequestOx™, for which it just received the CRL from the FDA. Elite's lead pipeline products include abuse-deterrent opioids which utilize the Company's patented proprietary technology and a once-daily opioid. These products include sustained release oral formulations of opioids for the treatment of chronic pain. These formulations are intended to address two major limitations of existing oral opioids: the provision of consistent relief of baseline pain levels and deterrence of potential opioid abuse. Elite also provides contract manufacturing for Ascend Laboratories (a subsidiary of Alkem Laboratories Ltd.). Elite operates a GMP and DEA registered facility for research, development, and manufacturing located in Northvale, NJ. Learn more at [www.elitepharma.com](http://www.elitepharma.com).

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Including those related to the effects, if any, on future results, performance or other expectations that may have some correlation to the subject matter of this press release, readers are cautioned that such forward-looking statements involve risks and uncertainties including, without limitation, Elite's ability to obtain FDA approval of the transfers of the ANDAs or the timing of such approval process, delays, uncertainties, inability to obtain necessary ingredients and other factors not under the control of Elite, which may cause actual results, performance or achievements of Elite to be materially different from the results, performance or other expectations that may be implied by these forward-looking statements. These forward-looking statements may include statements regarding the expected timing of approval, if at all, of SequestOx™ by the FDA, the steps Elite may take as a result of the CRL, the results of an End of Review Meeting and what actions the FDA may require of Elite in order to obtain approval of the NDA. These forward-looking statements are not guarantees of future action or performance. These risks and other factors, including, without limitation, Elite's ability to obtain sufficient funding under the LPC Agreement or from other sources, the timing or results of pending and future clinical trials, regulatory reviews and approvals by the Food and Drug Administration and other regulatory authorities, intellectual property protections and defenses, and the Elite's ability to operate as a going concern, are discussed in Elite's filings with the Securities and Exchange Commission, including its reports on Forms 10-K, 10-Q and 8-K. Elite is under no obligation to update or alter its forward-looking statements, whether as a result of new information, future events or otherwise.
